

AMORTIGUADORES

Los amortiguadores FLEETRITE® han sido desarrollados por INTERNATIONAL® para recorrer los caminos de México.

Por su diseño hidráulico, son ideales para un manejo firme y seguro en camiones de carga y pasajeros de todas las marcas. Gracias a su sistema valvular blow off y fluido especialmente formulado, ofrecen una respuesta efectiva al movimiento de la suspensión para asegurar el control de manejo.

Los amortiguadores Fleetrite®, **protegen la integridad de otras partes del chasis** que están expuestas a las vibraciones ocasionadas por las irregularidades del camino.

La extraordinaria firmeza en la estructura de los componentes de los amortiguadores Fleetrite®, minimizan el movimiento de la suspensión asegurando el control de manejo de las unidades.
